

HW 3: ONSR

Point Value: 50

Collins Photography

Submission Method: Create a new folder named hw3 in your account on the **MISWeb server**. Upload ALL files for this assignment. Verify that everything is working by opening your files from the server using a browser. Submit the URL for index.html on Canvas.

Instructions: Correct any issues from the prior assignment. Modify the files created in HW 2 to meet the following requirements.

Requirements

1. General preparation

- Before you begin, make a copy of your corrected hw 2 files (index.html and style.css) in a new folder.
- Make a copy of your template.html file in the new folder. Rename this file as ONSR.html.

2. Modify ONSR.html as follows:

- Change the title (in head) to Ozark National Scenic Riverways.
- Change the h1 within header to Ozark National Scenic Riverways.
- Add an h2 to header. This should read "Collins Photography".
- Within nav, add a hyperlink to index.html. Use the word Home.
- Within nav, add a hyperlink to ONSR.html. Use the words "Ozark National Scenic Riverways."
- Within <main>, add an <h2> heading that reads "Ozark National Scenic Riverways".
 - Add a paragraph containing the following text "Located in Missouri, this is the first national park area to protect rivers! This park includes the Current and Jacks Fork rivers, multiple freshwater springs, and varies trails."
- Add an H3 containing the word "Hiking".
 - Add a paragraph containing the text "The National Park Service website lists and describes the trails available in the park. Many of these are short, easy hikes, but several are much more difficult."
 - Link the word "website" to <https://www.nps.gov/ozar/planyourvisit/hiking-in-the-ozarks.htm>
- Add an H3 containing the words "Major Springs".
 - Add a paragraph containing the text "There are hundreds of springs in the area! The largest include:"
 - Create an unordered list containing the following items (use the default bullets):
 - Alley Spring
 - Big Spring
 - Blue Spring
 - Pulltite Spring
 - Round Spring
 - Welch Spring
- Add an H3 containing the word "Photos"
 - Add images for Alley Spring, Big Spring, Blue Spring, Round Spring, and Welch Spring
 - Below each image, add an H4 containing the name of the spring.
- Be sure the footer is consistent with index.html.

- Modify the nav area of index.html to contain the same links used in the nav area of ONSR.html.
- Modify style.css as follows:
 - Set the max-width attribute for img to 600px.

When finished, please preview your pages in a browser. This is a screen shot of mine (notice that I added a border in Word to demonstrate where the monitor edges are: you do not need a border on the screen). After you upload ALL files to the MISWeb server, verify that they work before submitting your URL on canvas.

[Home](#) [Ozark National Scenic Riverways](#)

Ozark National Scenic Riverways

Located in Missouri, this is the first national park area to protect rivers! This park includes the Current and Jacks Fork rivers, multiple freshwater springs, and varies trails.

Hiking

The National Park Service [website](#) lists and describes the trails available in the park. Many of these are short, easy hikes, but several are much more difficult.

Major Springs

There are hundreds of springs in the area! The largest include:

- Alley Spring
- Big Spring
- Blue Spring
- Pulltite Spring
- Round Spring
- Welch Spring
